## OBJECTIVE

A highly skilled and results-driven Technical Team Lead with extensive experience in full-stack software development, seeking a challenging position to utilize my expertise in leading and managing diverse development teams to deliver high-quality software solutions.

## Executive Summary

- **Results-driven Full Stack Developer** with **+11 years** of comprehensive experience in designing and implementing **Web, Desktop, and Mobile applications**. Skilled in both backend and frontend development, with a proven track record of success in developing robust and scalable software solutions.
- Currently associated with Homyt-Remotely, Jordan as Technical Team Leader.
- **Proficient in Java, Dart, PHP, JavaScript, TypeScript, C#, Flutter, jQuery, Nextjs, Laravel, Angular, and Spring Boot**, with extensive knowledge of the **Software Development Lifecycle (SDLC)** from requirements analysis to post-implementation support.
- **Technocrat**, skilled in evaluating end-user requirements, designing custom solutions, and troubleshooting complex information systems to meet organizational needs.
- Delivered diverse projects across **private, government, and semi-government sectors**, including educational, social, and e-commerce applications, consistently meeting deadlines and providing ongoing support.
- Notable achievements include developing a **mobile app for a top education provider** and implementing a **social media platform for a government agency**.
- Actively engaged in shaping **business and technology vision**, influencing strategies, and monitoring the execution of major initiatives to drive success.
- Exceptional **leadership and collaboration skills**, proficient in guiding cross-functional teams to deliver projects within defined parameters while staying current with technological advancements.

## Technical Purview

- **Programming Languages:** Proficient in Java, Dart, PHP, TypeScript, JavaScript, with strong experience in C#.
- **Frameworks:** Skilled in Flutter, Spring Boot, Laravel, and Kohana.
- **Web Front-end:** Expertise in Angular (AngularDart and Angular TypeScript), ReactJs, and jQuery.
- **Mobile Development:** Adept in Flutter, Android, and Swift; experienced in creating mobile apps from scratch and deploying to Google Play, App Store, and App Gallery
- **Unit Testing:** Proficient with testing unit frameworks such as Flutter (flutter test), Spring Boot (JUnit), Angular (Jasmine), and Laravel (PHPUnit) for high-quality software delivery.
- **Programming Paradigms:** Proficient in applying object-oriented programming (OOP) principles
- **Real-Time Application Frameworks:** Knowledgeable in Socket.IO, Firebase Cloud Messaging (FCM), and Apple Push Notification (APN)
- **RESTful APIs:** Familiar with various data interchange formats such as JSON and tools like Postman
- **Server Management:** Proficient in managing Linux servers (Apache, Nginx, Bind, PM2, etc.) with **Bash scripting** and Windows servers
- **Mail Server Management:** Skilled in managing mail servers (Postfix, Dovecot, Roundcube).
- **Databases:** Extensive experience in SQL, SQLite, RDBMS (MySQL, MariaDB, PostgreSQL), DBMS (LightDB).
- **In-memory Data Solutions:** Expertise in Redis.
- **Markup Languages:** Proficient in HTML and XML.
- **Styling:** Skilled in CSS, SCSS, and **frameworks** such as Tailwind, Bulma, and Bootstrap
- **UI Tools:** Experience with Material-UI.
- **Methodology:** Agile development.
- **Information Security:** Proven track record in software and server protection, including implementing authentication and authorization services for Microservices.
- **Project Execution:** Expertise in end-to-end project lifecycle management.
- **Cloud Computing:** Proficiency in Google Cloud Platform
- **Project Management Tools:** Familiarity with tools like Jira, and Space.
- **Version Control:** Experience with Git, GitHub, GitLab, or Bitbucket.

## Core Competencies

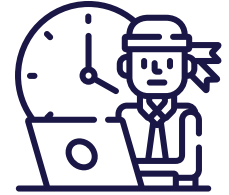

- **Full Stack Software Development Lifecycle (SDLC).**
- **Microservices** Architecture.
- **Design Patterns and Best Practices.**
- Proficient in Coding, Testing, and Debugging
- Expertise in Requirements Gathering and Analysis.
- Strong Project Execution and Management Skills.
- Effective Cross-functional Team Coordination.
- **Agile** Application Maintenance and Support
- UI/UX Design and Optimization.
- Performance Tuning and Defect Management.
- Comprehensive Reporting and Documentation.
- Stakeholder Engagement and Collaboration

## Additional Skills

- **Problem Solving:** Strong analytical and critical thinking abilities.
- **Graphic Design:** Proficient in Adobe Photoshop and Illustrator.
- **Video Editing:** Skilled in Adobe Premiere.
- **Audio Editing:** Experienced with Adobe Audition.
- **Compelling Layout Design:** Adept in Adobe InDesign.
- **Professional Presentations:** Proficient in Prezi and Visme.
- **MS Office Suite:** Expertise in Excel, PowerPoint, Word, and more.
- **Computer Maintenance:** Capable of both software and hardware maintenance.
- **Troubleshooting:** Comprehensive expertise in addressing a wide range of computer systems and issues.

# PROJECT ANNEXURE

## Redz - Website & Mobile App

Apr 2023 - Present

- Website: [www.redzapp.com](http://www.redzapp.com)
- Tech Stack: Nextjs, Flutter, PHP, Python
- Overview: Social media app with 10M+ users.

## BrainyQuill - Mobile App

Apr 2019 - Aug 2022

- Mobile App: Android, IOS.
- Tech Stack: Dart (Flutter), Kotlin, and Swift, Java (Spring Boot) - **distributed system**.
- Overview: An all-in-one school management system streamlining administrative tasks, integrating learning tools. Simplifies daily operations, supports personalized learning, and provides real-time analytics for data-driven decision-making and improved educational

## Mwaen - Website

Jan 2020 - Sep 2022

- Website: [www.mwaen.com](http://www.mwaen.com)
- Tech Stack: PHP, Laravel, JQuery.
- Overview: A comprehensive e-commerce platform integrated with an online payment gateway, designed to comply with Saudi Arabia's tax and accounting regulations while providing a seamless shopping experience for customers.

## Yabrud - Mobile App

Dec 2022 - Jan 2023

- Mobile App: Android, IOS.
- Tech Stack: Dart (Flutter), Kotlin, and Swift.
- Overview: A robust internal orders management system designed for seamless company operations, streamlining order processing, tracking, and fulfillment. This comprehensive solution integrates inventory control, customer relationship management features.

## Wclac - Website

Jan 2017 - Dec 2017

- Website: [www.wclac.org](http://www.wclac.org)
- Tech Stack: PHP, Kohana, JQuery.
- Overview: A comprehensive profile and system designed to manage the activities and events of a charitable organization, streamlining the recruitment process and handling the association's publications. This all-in-one solution enables efficient coordination of charity events, volunteer onboarding, and resource allocation while providing an integrated platform for communication, collaboration, and reporting.

## Zeedats Capital - Website

Apr 2023 - Present

- Website: [www.zeedatscapital.com](http://www.zeedatscapital.com)
- Tech Stack: NextJs.
- Overview: An investment financial platform for managing the company's and investors' operations and funds, featuring a mini banking system.

## Dwahe - Website

Apr 2022 - Jun 2022

- Website: [www.dwahe.com](http://www.dwahe.com)
- Tech Stack: Frontend (Angular) with backend (Laravel).
- Overview: Secure steganography technique to embed encrypted, concealed messages within visible text content, ensuring seamless and unobtrusive integration for covert communication and enhanced privacy protection.

## BrainyQuill - Website

Apr 2019 - Sep 2019

- Website: [www.brainyquill.com](http://www.brainyquill.com)
- Tech Stack: Frontend (Angular) with backend (Laravel).
- Overview: A comprehensive user profile and CRM system featuring an integrated live chat functionality, designed to enhance customer engagement and support. This all-in-one platform enables efficient communication between clients and support teams.

## Tawreed - Windows app

Oct 2022 - Dec 2022

- Environment: Windows OS
- Tech Stack: C# (Windows Forms .NET).
- Overview: An innovative e-commerce platform that enables pharmacies to easily request medications from drug stores to streamline the ordering process, and optimizes inventory management.

## MZN - Website

Sep 2022 - Oct 2022

- Website: [www.mzn.dev](http://www.mzn.dev)
- Technology: Laravel
- Overview: Website profile For Mzn Company.

Additionally,  
there are dozens of other projects  
that cannot be mentioned here due to confidentiality  
agreements or because they are no longer available online.

**wyanbu.com**

Commercials ads like **Open Sooq**.

**sakhnin.com**

Manage football team and leagues.

**ibnrushd.edu.sa**

Manage all business of the college.

## WORK EXPERIENCE

- Apr 2023 - Present **Technical leader** at **Homyt**  
Remotely, Jordan, homyt.com
- May 2019 - Apr 2023 **Technical leader** at **MZN**  
On-site, Jordan, mzn.dev
- May 2022 - Dec 2022 **Technical leader** at **SmartSoft**  
Contract, Jordan, smartsoft-sys.com
- Sep 2017 - Mar 2019 **Technical leader** at **Homyt**  
On-site, Palestine, homyt.com
- Sep 2015 - Sep 2017 **Full-Stack Developer** at **EduSoft**  
Remotely, Saudi Arabia.
- Apr 2015 - Aug 2015 **Developer** at **Imkan**  
On-site, Saudi Arabia, imkan.com.sa
- Mar 2014 - Mar 2015 **Developer** at **Homyt**  
On-site, Palestine, homyt.com

## KEY RESULT AREAS

### Across all roles

- Developing concurrent web, desktop, and mobile applications, implementing and integrating technologies as needed.
- Managing the entire software development lifecycle, including analysis, design, development, coding, testing, implementation, and documentation.
- Gathering functional and technical requirements through continuous engagement with clients and users.
- Providing architectural inputs based on the evaluation of solution alternatives, frameworks, and products.
- Writing clean, scalable code using Java, Dart, PHP, C#, TypeScript, and JavaScript for back-end and front-end development.
- Streamlining the development process from initiation to completion, ensuring timely progress.
- Collaborating with team members to ensure smooth project execution and high-quality deliverables.
- Leading, mentoring, and guiding a team of developers, fostering a collaborative and inclusive environment.
- Monitoring and addressing application performance, stability, and security issues.
- Effectively communicating project status, risks, and issues to stakeholders and management.
- Continuously researching and implementing industry best practices, new tools, and technologies to improve development efficiency and product quality.
- Assisting in project scoping, estimation, and resource allocation to ensure successful project delivery within budget and timeline constraints.
- Ensuring that the team adheres to established coding standards and best practices.
- Conducting code reviews and providing constructive feedback to team members to maintain code quality.
- Identifying skill gaps and facilitating training or knowledge-sharing sessions to promote continuous growth within the team.
- Collaborating with cross-functional teams, such as QA, design, and product management, to ensure alignment and timely delivery of projects.

## Volunteer Assignments

- Conducting training courses in software development and offering pro bono consultations in the field of information technology.
- Providing expert guidance and advice to individuals and organizations seeking to navigate the complex world of IT, empowering them with the knowledge to make informed decisions.
- Actively participating on the StackOverflow platform, assisting developers by answering software-related concerns and queries, with contributions viewed by **over 2.2 million people**.
- Creating a positive impact by offering consultation, training, and online support to help others develop their skills and overcome challenges in the technology industry.
- Collaborating with non-profit organizations and educational institutions to deliver workshops and seminars on various IT topics, promoting digital literacy and skill development.
- Mentoring students and early-career professionals, sharing industry insights and career guidance to help them navigate the rapidly-evolving tech landscape.
- Participating in hackathons and coding competitions to support social causes, using technical expertise to develop innovative solutions for pressing issues.
- Contributing to open-source projects, helping to improve software quality and expand the availability of accessible tools and resources for the broader tech community.
